It is a very common misconception that a first cousin once removed is the same as a second cousin, it is not. Your second cousin is the child of your parent's first cousin. Therefore, if you share grandparents with a first cousin, you share great-grandparents with a second cousin, great-great-grandparents with a third, and so on. The child of your first cousin is a first cousin once removed, your first cousin's grandchild is a first cousin twice removed, and also so on.  
It really is rather simple once you get the hang of it.

Oh, and here's the really confusing bit: the system doesn't define directions up or down. Your parent's first cousin is your first cousin once removed, and so is your first cousin's child.

Thanks to everyone who made my research possible. Since I was young I have always been interested in our family heritage and history. Thanks to Facebook, I was able to gather a number of head shots used for this update.

Please keep the updates coming. My email address is [sugada@gmail.com](mailto:sugada@gmail.com) (John Seymour)

I dedicate this family tree book to my cousin Sandi Sitkowski for the many years collecting a lot of this data that was put together here. It has taken countless hours researching it all and I want to thank her for her years on it.  
Thank you Sandi!
